The Museum of Encaustic Art, brings you an encaustic/wax art exhibit of 37 artists nation-wide.

**Global Warming is REAL**, the theme for this juried show, helps us to examine how we assimilate and personalize the scientific information coming to light about global warming. In addition, enjoy over 150 works of art in the Museum's permanent collection, as well as work for sale. Discover the Art of WAX. Admission at the door.
