PHOTO ENCAUSTIC WORKSHOP

with Jim Gautier and Richard Nicholas

CREATING WALL ART BEYOND YOUR PHOTOGRAPHY

Learn to hand color your photographs using PanPastel and other media. Add encaustic (wax) as an overlay to give the photograph a unique look. This is a hands on workshop for all skill levels and no experience with encaustic or hand coloring is necessary. The course will include:

- ◆ Learning about tools and materials to create the photo encaustic
- ◆ Setting up your work space on a budget
- ◆ Choosing the best photo and photo paper to use
- ◆ Mounting the photo to one of several substrates
- ◆ Practicing the process of hand coloring
- ◆ Applying encaustic to the photograph
- ◆ Manipulating the encaustic to create different surface textures
- ◆ Presenting your finished photo encaustic in a variety of styles
- ◆ Broadening your horizon...thinking outside the box.

Students should bring several small (approximately 5" x 7") black and white or color matte surface photographs. Prints will be furnished if those are not available to you. The goal of the class is for you to have two completed hand colored photo encaustic pieces of art ready to hang or mat and frame.
