One or Two Days: Your Choice

Saturday, Feb 22 Sunday, Feb 23

All Materials Provided

Day One : You do not need any prior experience, but if you have taken some beginning instruction before, I will be able to help you explore further with the techniques. This class covers the basic encaustic techniques with different waxes, boards, and paper. You will learn about tools and products. You will leave excited about the wax medium, with a finished piece of art in hand.

Day Two : This class is for those that had so much fun in Day One, that they want to continue to explore what they just learned, adding more techniques to the process. Maybe you want to keep working on a piece or start new on a larger board. This class is also for those with more advanced skills, wishing to explore the flexibility of encaustic/wax in mixed mediums, such as inks, oils, acrylics, natural elements, photo's, and other materials of your own that you may want to include.
