

**DEMO TOPIC: PHOTO ENCAUSTIC -
Take Your Photography to Another Artistic Level**

JIM GAUTIER & RICHARD NICHOLAS

DATE: THURSDAY, SEPT 24 TIME: 10 am - 11:30 am

LOCATION: The Lodge at Santa Fe

This demonstration is offered in conjunction with the 2020 International Art Conference put on by the Encaustic Art Institute (EAI) and the Museum of Encaustic Art (MoEA) in Santa Fe, NM. This and all demos/speakers are open only to conference attendees and are free. For info on the conference, and registration link, click [here](#).

Jim Gautier will demonstrate how to hand-color photographs using PanPastel and other media and show how to add encaustic (wax) as an overlay to give the photograph a unique look. He will also address tools & materials; setting up your workspace on a budget; choosing the best photo & photo paper to use. He will show how to mount the photo to one of several substrates and how to manipulate the encaustic to create different surface textures and, finally, he will suggest how to present the finished photo encaustic in a variety of styles.

Richard Nicholas will be demonstrating how to use iPad technology to color and manipulate digital photographs. You will have an introduction to several popular iPad programs (such as Snapseed, Procreate, Photoshop Mix) to dramatically transform your photos into works of art.

You will learn how to print the manipulated photos onto high quality paper which can withstand the encaustic process and see how to take a digital photo through the process from idea to completed work.

JIM GAUTIER & RICHARD NICHOLAS are New Mexico-based artists. Click link: to [learn more](#) about Jim. To [learn more](#) about Richard and see his work, click [here](#).
