You will be amazed at the depth and texture you will achieve and help you think outside the box. This is a hands on workshop for all skill levels in any medium. Artists who have existing acrylic works or watercolor works who would like to take them a step further by applying wax, are encouraged to bring them with you. No experience is necessary as this workshop lends itself to all artistic levels. All materials are included. We will start from the beginning with acrylic and wax in different formats. Bring your imagination and snacks/beverages for self-regulated breaks.

The course includes:

Demonstrations using acrylic on paper and canvas with the application of encaustic wax afterward. Also demonstrations of the reverse.

Douglas is the founder of the Encaustic Art Institute, the Museum of Encaustic Art, and the online magazine - *Encaustic Arts Magazine*.

Bill Sabatini has lived in New Mexico and the Southwest for the last four decades. A Fellow

in the American Institute of Architects after 40 years of successful architectural practice, he continues his passion for acrylic art in his own studio. Always exploring new ways of expression, he strives to create imagery of strong shape, form, contrast, and color to evoke emotion and interest by the viewing public.
